

Big Ben Venture News

Power & Tower Holding AB has performed a merger with two Florida companies within wireless communications

Big Ben focus on businesses that have reached a certain stage of maturity and growth. Our services include mergers and acquisitions, as well as public listings in Europe. We develop business and marketing plans, as well as Private Placement Memorandums in order to support private fundraising's.

Power & Tower Holding AB backed by New Equity Venture Int AB have announced that the Company has entered into an agreement to acquire two Florida based companies. The first is Power and Tower Technologies LLC and the second is Kerr Electrical Technologies Inc. The companies are providing services with consulting and contracting for clients within LTE, microwave, wireless communications, wire-line data communication, and high power electrical industries. The companies have about 30 employees.

The acquisitions were made through non-cash issue and New Equity Venture's ownership interest in Power & Tower Holding AB. The agreement approved by the auditor.

More information about the forthcoming IPO will be presented shortly.
